

Slosh Pipe Instructions and Parts List

Parts List:

- 1x 2-inch PVC pipe cut from 24" to 18" long. (can be done in the store with handsaw in trim dept)
- 2x 2-inch PVC pipe caps
- 1x Small container of PVC 2-in-1 glue (can use primer and adhesive but unnecessary)
- 1x Krylon Fusion Spray paint in fun color
- 1x 16oz water bottle to fill pipe about half-way

Instructions:

- Step 1:** Lay out a junk towel you don't mind getting the glue or primer all over.
- Step 2:** Swab glue (or primer, then glue if using 2-part) on one end and 1 cap
Then, QUICKLY!
- Step 3:** Press the glued cap onto the glued end and rotate 90 degrees while holding in place for 30 sec.
** Wait for 2-3 minutes **
- Step 4:** Pour the water into pipe
- Step 5:** Repeat steps 2 & 3 for the other end of the pipe.
- Step 6:** After waiting 10+ minutes, spray paint the pipe in a well-ventilated area. Paint one side lightly, let it dry, flip over and paint other side, repeat if needed on first side.
